

What is Depression?

Depression is a common mental health problem characterised by long-lasting low mood, low energy, and low motivation. People with depression feel drained, hopeless, or numb, and sometimes feel like life is not worth living. Fortunately, however, depression is very treatable.

An Online Treatment for Depression

Depression can be effectively treated with internet-delivered Cognitive Behaviour Therapy (iCBT). Just like face-to-face therapy, iCBT can teach you strategies for managing the painful thoughts and feelings that come with depression. iCBT is also accessible from most devices, meaning that you can access treatment at a time and place that suits you.

What does the course involve?

The Depression Course by THIS WAY UP is an evidence-based iCBT course. Across six lessons, this course will teach you:

What depression is and how it works

Strategies for boosting your mood and sleep

Problem solving and goal setting skills

Managing unhelpful thoughts

Strategies for staying well in the long-term

We're here to support you on your journey to better mental health. Learn more about the Online Course for Depression at thiswayup.org.au
